

Pembina County Resource Guide

October 2021

Public Health
Prevent. Promote. Protect.

Pembina County Public Health

*Pembina County Memorial Hospital
Wedgewood Manor*

Goal: The goal of this community resource guide is to raise awareness about and to promote resources available to caregivers, aging individuals who desire to live independently, and those seeking resources in rural Pembina County.

This document was developed in order to address a priority need identified within the 2014 Community Health Needs Assessment (CHNA). The CHNA assessment was a cooperative effort completed by Pembina County Memorial Hospital and Pembina County Public Health. Following the 2017 CHNA, a section on Behavioral Health was incorporated.

A Pembina County Behavioral Health Coalition was formed in 2016. The organization continues to meet bringing education on behavioral health topics and events to county residents.

This directory was developed collaboratively with community stakeholders and will continue to be revised and updated. The intentions of the stakeholders are not to endorse one organization over another but to provide easily accessible, current, and accurate information about the variety of resources promoting wellbeing.

Disclaimer:

This information was compiled as a public service project. Every effort has been made to provide complete and accurate information. Please bring any inadvertent error or omission to the attention of Pembina County Public Health.
